

MarketView[®] Mobile[™] for iPhone[®]

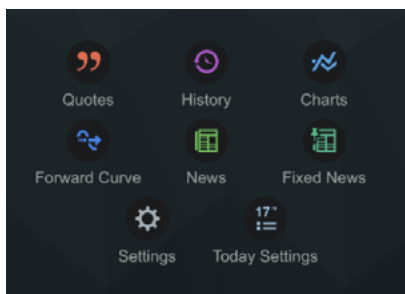

MarketView Mobile Download

1. Go to the App Store and search for **MarketView Mobile**.
2. Click "Get" to download and install the **MarketView App**.
3. Once the App is installed, select the icon on your phone.
4. Proceed by entering your MarketView credentials.

MarketView Mobile Navigation

1. To begin a query, click on one of the above icons.
2. Once clicked, a list of pre-built queries is displayed.
3. To start a new query, click the **plus sign** at the top right corner of the screen.
4. To go back to the home page, click the **three horizontal lines** at the top left corner of the screen.
5. To delete existing queries click the **wrench** next to the plus sign.

Adding Symbols to a Query

1. Once you have clicked the **plus sign** tap the screen where it says, "Tap here to add a symbol."
2. A list of data providers (the Symbol Tree) is displayed. Scroll down to select the provider, or click the **search icon** at the top of the screen to insert symbols manually and search by description.
3. To select symbols, click on them to checkmark them. The selected symbols will appear in the **selection icon** at the bottom left corner.
4. When you are ready to add the symbols to a query, click "Done."

Editing, Adding, Sharing

1. Once you have created a query, click the **three dots** at the top right to edit or add symbols and fields and share.
2. **Settings:** lets you edit symbols and fields.
3. **Share:** lets you send queries through emails and messaging.

Features

- **Quotes:** pull streaming market data.
- **History:** pull historical data and display in a variety of time series aggregations.
- **Chart:** insert a chart along with the supporting historical data.
- **Forward Curve:** insert a curve along with the relevant data points from the futures contracts.
- **News:** stay informed with real-time streaming energy and commodity market news updates.
- **Fixed News:** stay current with the same news sources.
- **Settings:** change credentials, restore predefined pages, synchronize pages, and view MarketView Mobile version.
- **Today Settings:** view MarketView notifications in the Notification Center on your iPhone.
