

MAKING COMPLEX IDEAS SIMPLE.

Read how MarketView tools by Drillinginfo helped CSC Arbitrage Group streamline their workflows, improve analytical capabilities, and provide solutions that met their data needs.

MarketView tools by Drillinginfo provide CSC Arbitrage Group with robust integrated solutions.

The Challenge

CSC Arbitrage Group needed integrated solutions that would allow them to streamline their workflows, improve analytical capabilities, and provide an array of solutions to meet the data needs of their various departments.

The Solution

CSC Arbitrage Group implemented MarketView tools by Drillinginfo. These robust tools which provided flexibility to support their business activities and extend their capabilities through improved analysis.

MarketView tools used:

MarketView Desktop

CSC uses the MarketView Desktop tool for monitoring market quotes as well as analysis and charting.

MarketView API

MarketView Application Programming Interface (API) is used to easily pull data into an analytical tool such as R or other math/stat programs to create scripts to import and analyze market data. The MarketView API allows users to easily customize the symbols, types of data, and range of dates.

MarketView ExcelTools

MarketView ExcelTools allows CSC to bring real-time and historical data into Excel for a more sophisticated analysis. CSC can call up exchange price data, USDA, or other aggregated market data available via MarketView and combine it with price data for analysis.

MarketView WebTools

The MarketView WebTools widget makes it easy to incorporate streaming data onto CSC's public website and easily integrate one or more components from a suite of dynamic and interactive web tools with a few lines of HTML.

About CSC Arbitrage Group

CSC Arbitrage Group is focused on two primary businesses: Design and manage customer hedging strategies for clients. Designated market maker/liquidity provider for certain agricultural futures exchange products.

CSC Arbitrage is a registered Commodity Trading Advisor directly connected to exchanges in North America and Europe that offer trading in agricultural markets.

CSC Arbitrage Group has experience in trading food and agriculture markets that are characterized by lower levels of market liquidity and other potential nuances that require specialized expertise.

“ In Their Words

“MarketView provides us with a set of tools that provide the editability and robustness to support our business activities and extend our capabilities through improved analysis and efficiency.”

Kent Horsager, President,
CSC Arbitrage Group, LLC
