

FAST, ACCURATE REAL-TIME INFORMATION.

Read how MarketView by Drillinginfo helps GS Caltex strive to be the leader in providing total energy service.

Case Study

MarketView by Drillinginfo helps GS Caltex proactively respond to the rapidly changing market environment.

The Challenge

With Heavy Oil Upgrading (HOU) facilities designed to crack 155,000 barrels of bunker C oil a day to produce high-valued products such as gasoline, kerosene, and diesel, plus advanced facilities such as those designed to desulfurize 272,000 barrels of kerosene and diesel a day, GS Caltex needed fast, accurate, real-time information to proactively respond to the rapidly changing market environment.

The Solution

MarketView allows GS Caltex to forecast forward price movements and recommend trading strategies to manage price risk and optimize refinery margins.

Why MarketView:

Integrated System

MarketView's product allows GS Caltex to efficiently organize a range of critical information all on one screen. Because MarketView tools are easy to use and customize, users can quickly navigate through many pages containing charting, technical analysis, real-time and historical price data and news.

Powerful News

The newsfeeds and NewsPlus features from Dow Jones Energy Service provide actionable news and insightful intelligence that helps navigate the energies industry.

Portability

With MarketView, GS Caltex has an integrated desktop solution that can be accessed around the clock from any location, or shared with colleagues. The mobile aspect of the application lets users stay connected from the office, home, or on the road.

Outstanding Support

The Drillinginfo team provided training on how to use the system and, most importantly, set up a configuration meeting specific requirements. MarketView proactively provided training on new enhancements and other helpful IT advice on how to optimize applications with desktop and mobile.

About GS Caltex

GS Caltex has crude oil refining facilities with a capacity of 840,000 barrels a day and provides a stable supply of oil products to the nation.

Over the past 40 years, GS Caltex, which aims to be a total energy service leader, has been pushing to not only perform in the petroleum and petrochemical businesses, but also to diversify its energy business, thus leading the energy industry.

GS Caltex has expanded its business areas into city gas, electric power, exploration & production, convenience retail, e-business, and New and Renewable Energy, thereby covering all energy fields and becoming a total energy service provider with global competitiveness.

In Their Words

"Since using MarketView, I have become more disciplined and quantitative, integrating charts and data tables into my analysis and forecasts."

John Driscoll, Senior Manager, Products

PROACTIVE

EFFICIENT

COMPETITIVE

By monitoring the market, Drillinginfo continuously delivers innovative oil & gas solutions that enable our customers to sustain a competitive advantage in any environment.

Drillinginfo customers constantly perform above their competitors because they are more efficient and more proactive than the competition.
