Access advanced charting and technical analysis functions for tick, intraday and historical data. Quickly view the information you need to drive your decisions.

Fully Customizable

- Multi-paged layouts can be adjusted to meet your needs for monitoring commodity market data and news.
- Ability to run as a "container" or as an individual toolbar with free floating windows in Free Form Mode.
- Numerous hotkeys and shortcuts built in to decrease mouse clicks and dialog box edits.
- Create and save individual data displays, multiple user-defined formulas, and individual component templates.

Portable Solution

- Delivered over the Internet as a SaaS-based application.
- Easy installation and maintenance.
- Training and automatic upgrades available at no additional cost.
- Powerful disaster recovery tool – accessible from any device with an Internet connection.
- Monitor and analyze real-time, historical, and proprietary data along with breaking news.

Quick Note

With MarketView Desktop™ by Drillinginfo, you can monitor and analyze real-time, historical, and proprietary data along with breaking news **all in one system** that also integrates exchange, broker, assessment, cash basis prices and other data sources.

better, faster decisions

MarketView Desktop by Drillinginfo components:

Charts and Table History

- View real-time and historical time series prices, along with technical studies for analysis in customizable dynamic charts.
- Select symbol lists and related fields to quickly create charts.
- View time series data in all desired frequencies: trades, intraday, daily, weekly, monthly and seasonal.
- Access sophisticated trend analyses with Fibonacci, Gann, trend channels and more.
- Additional features include panning and zoom capabilities and the ability to easily print and email charts.
- Table History displays the same time series data from Charts in a tabular format.

QuoteView

- Price data updates on a real-time basis in a spreadsheet style grid that displays your selected rows and symbols along with user-defined data fields.
- Features include access to futures symbol chains with automatic monthly rollover, complete control of data field display, drag and drop functionality, color options.

Real-Time News

- Streaming news updates from numerous sources including the featured Dow Jones AgriWire and Energy Newswires.
- Filter news headlines by source, keyword, category, and ticker symbol.
- Use the alert function to keep abreast of breaking stories.
- Access up to ninety days of historical news.

- Create personal symbols, such as spreads and strips, with custom formulas that can be saved for future use in QuoteView, Charts or Table History.

Vessel Tracking

- Platts cFlow's intuitive interface via MarketView by Drillinginfo Desktop makes examining a robust set of vessel, port, facilities and fundamentals data easier.
- Focus on any location, cargo, or vessel type with automated alerts, reports, and clear map views.

Option Analytics

- Easily view all option contracts for an underlying position.
- Put/call viewing and analysis, greek values, Black-Scholes model, volatility calculations and strike price filters.

PROACTIVE

EFFICIENT

COMPETITIVE

By monitoring the market, Drillinginfo continuously delivers innovative oil & gas solutions that enable our customers to sustain a competitive advantage in any environment.

Drillinginfo customers constantly perform above their competitors because they are more efficient and more proactive than the competition.
