

# MarketView Mobile

by **drillinginfo**

Monitor real-time data including quotes, news, charts, and historical information any place, any time.

**Whether at home, in meetings, or on the road, commodity professionals need constant access to market-moving news, data, and analytics.**

It's easy to access the power of your MarketView by Drillinginfo service with the MarketView Mobile by Drillinginfo apps. Download the MarketView Mobile iPad app and the phone app for iPhone, Android, or BlackBerry for an optimized mobile view of your quotes, news, charts, forward curves, and more.

## Key Features

- **No Refresh Required** – view streaming price quotes, news, charts, and tables
- **Sharing** – text, email, or AirDrop information to other MarketView Mobile users
- **Comprehensive Coverage** – access real-time, historical, and proprietary data from top data and news partners such as Platts, Argus, OPIS, CME, ICE, Dow Jones, ISOs, ICAP, Tullet Prebon, and GFI
- **Fully Customizable** – quickly access user-defined formulas, charts, forward curves, quote pages, and tables all from your mobile app
- **Fast Navigation** – advanced symbol search capabilities and pre-defined pages for major markets
- **Extensive Charting** – select from bar, candlestick, line, and mountain configuration
